

EYnovation - subscription-based service for start-up and scale-up companies

EYnovation™ helps start-up and scale-up
entrepreneurs grow from local to global.

The better the question. The better the answer.
The better the world works.

Building a better
working world

Market leaders of tomorrow may be only startups today.

We strongly believe that entrepreneurial spirit drives innovation. And we are proud that EY has always supported ambitious entrepreneurs who are brave enough to challenge and change the existing markets.

Building up on our experience with high-growth companies, EY in Bulgaria decided to launch EYnovation - a subscription-based service designed specifically for start-up and scale-up companies. EYnovation offers you all the services you need to accelerate your business. This is the program that brings together the experience of seasoned tax, legal, accounting and finance professionals channeled through a single relationship manager who will be available for your day-to-day business matter questions.

EYnovation is our ambitious plan for your company - to help it grow from where your processes, practices and operations currently are to the operational excellency that will impress your investor and lessen the risks for your business.

Following your strategic plan and at your own speed, we will help you build a solid foundation that will set the stage for long-term sustainable growth. And all of this will be done gradually - step by step and process by process for a pre-set monthly subscription fee.
